Thriving in the Digital  
Age: AI, Social Media,  
Cyber & More

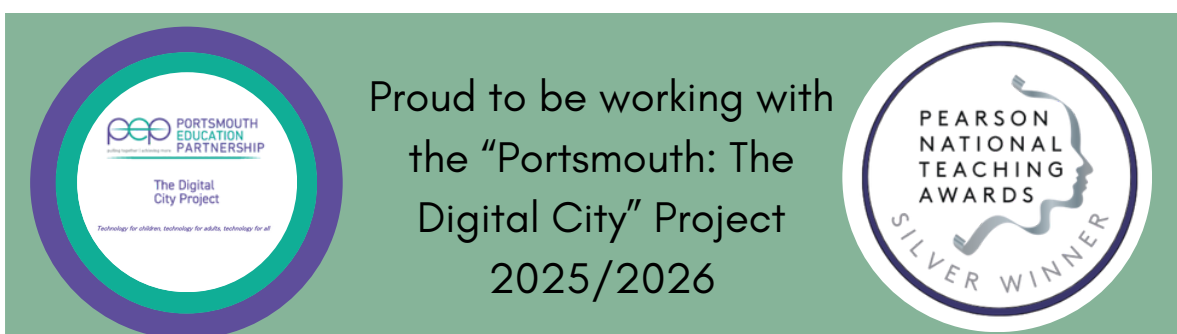

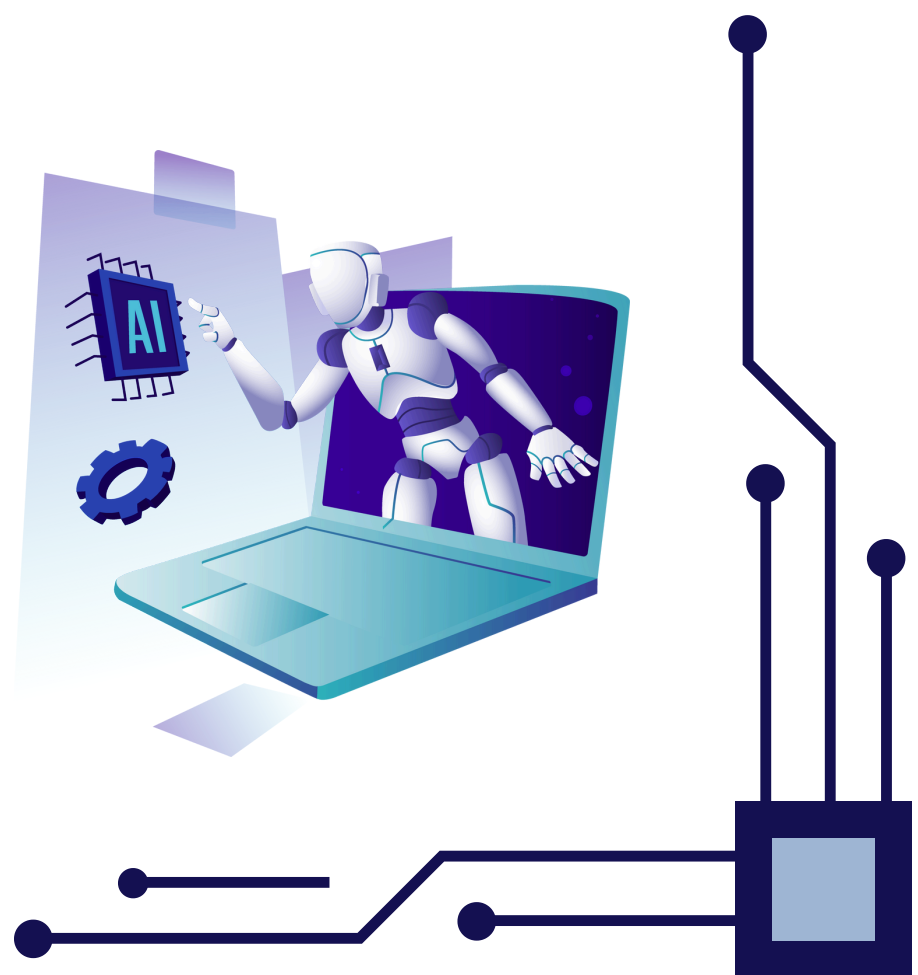

# Thriving in the Digital Age: AI, Social Media, Cyber & More

As a cluster of schools, we're delighted to be working with the multi-award winning "Portsmouth: The Digital City" Project Team to bring you **six in-person sessions** across the year designed to support families in navigating the ever-changing digital world.

Together, we'll explore:

- Social Media – keeping children safe and supporting positive use
- Cyber Safety – protecting your family online
- AI – how it can support learning and everyday life at home
- Digital Skills – practical tools and tips to help your child (and you!) thrive

Each session is interactive, family-focused, and packed with practical advice, easy-to-use tools, and top tips you can use straight away.

# SESSION DETAILS

## Session 1: Click Smart! Helping Your Family Stay Safe & Savvy Online

1 Kick off the series with practical tips on social media, gaming, and online trends. Discover how to keep your child safe while encouraging positive, confident use of technology.

## Session 2: AI Uncovered – What Every Parent Should Know

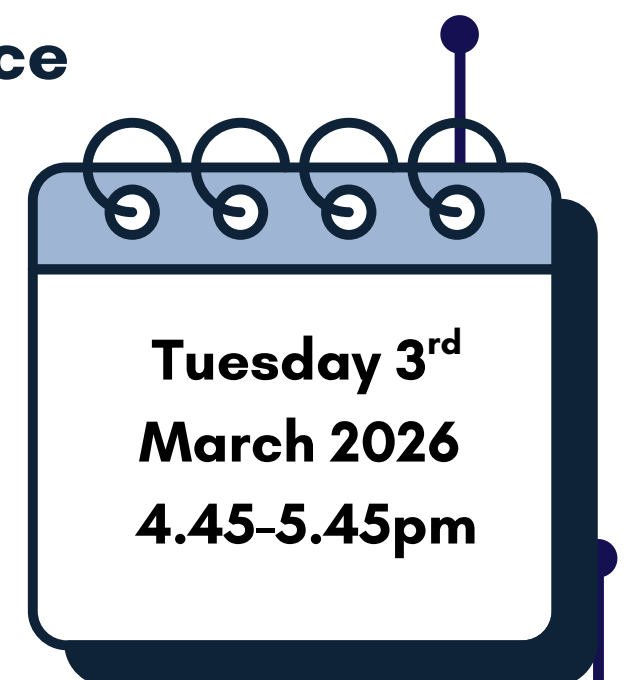

2

AI is everywhere – but what does that mean for your family? Learn the basics of artificial intelligence, how your child is already encountering it, and what it means for the future.

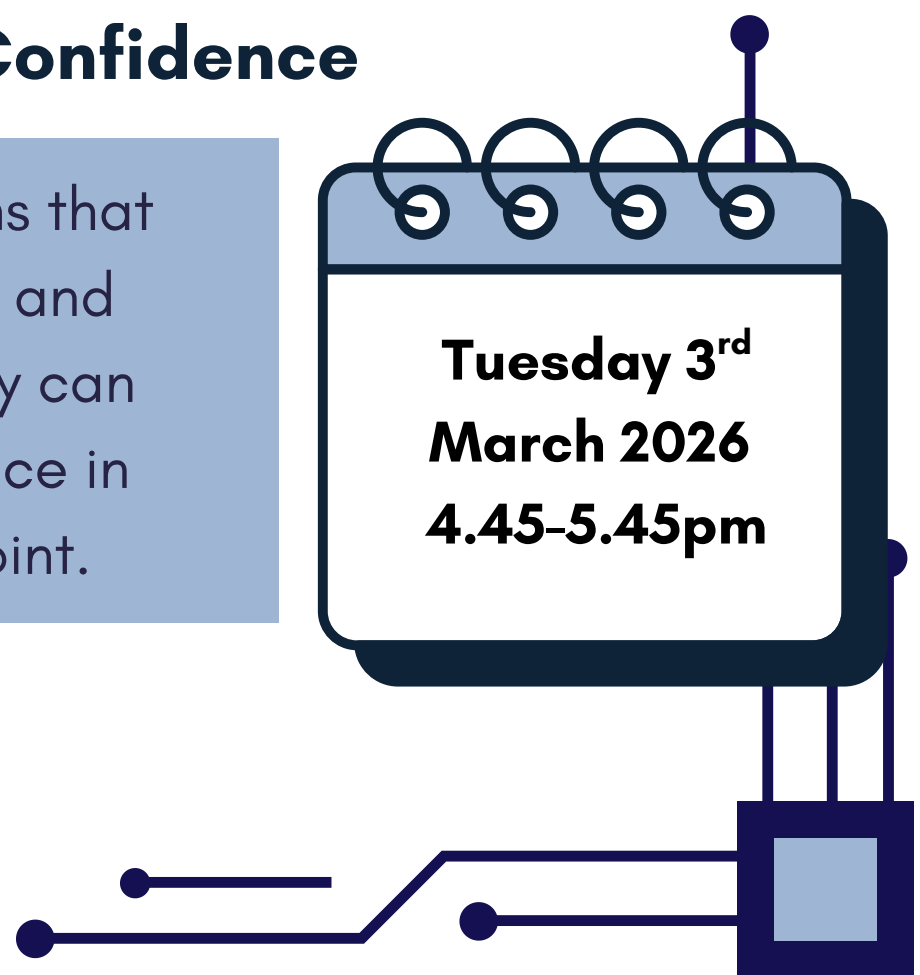

## Session 3: Cracking English with AI & Digital Tools – Boost Reading, Writing & Confidence

3

Discover AI apps and digital platforms that support spelling, grammar, reading, and creative writing. See how technology can boost your child's skills and confidence in English – whatever their starting point.

Proud to be working with the "Portsmouth: The Digital City" Project 2025/2026

# SESSION DETAILS

## Session 4: Making Maths Add Up with AI & Technology

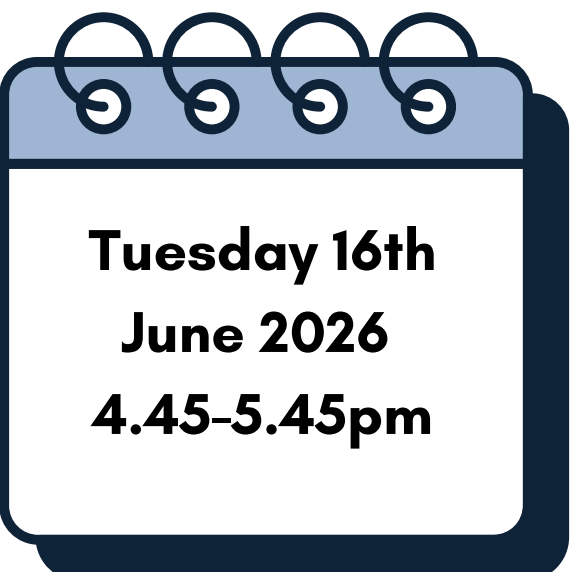

4

Maths doesn't have to be a struggle! Explore engaging and practical AI-powered and digital tools that personalise learning, build confidence, and make maths fun for every child.

**Tuesday 28<sup>th</sup>**  
**April 2026**  
**4.45-5.45pm**

## Session 5: Technology for Inclusion – Supporting Children with SEND

**Tuesday 16<sup>th</sup>**  
**June 2026**  
**4.45-5.45pm**

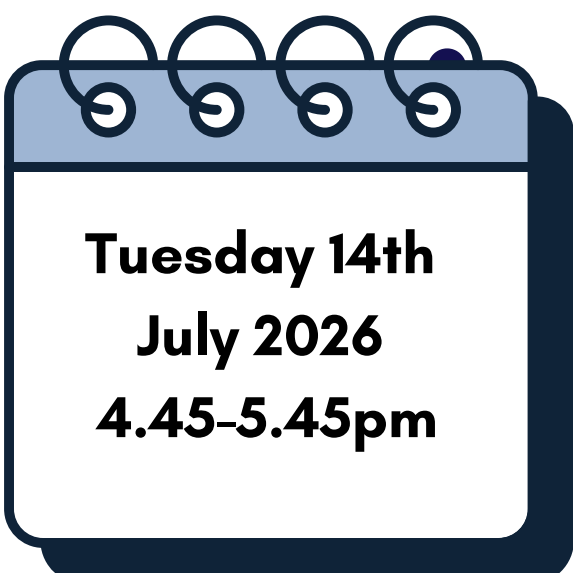

5

Find out how AI and digital tools can break down barriers for children with special educational needs and disabilities. Learn about tailored technologies that support communication, organisation, and learning.

## Session 6: Smarter Living with AI & Everyday Tech – Tips for Parents & Carers

6

AI and digital tools aren't just for children's learning. From meal planning to managing family routines, discover smart technologies that can save you time, reduce stress, and make life easier.

**Tuesday 14<sup>th</sup>**  
**July 2026**  
**4.45-5.45pm**

Proud to be working with  
the "Portsmouth: The  
Digital City" Project  
2025/2026

# SIGN UP INFORMATION

Please register for the session (s) by using the form or the link below.

Sessions will be delivered in person at Craneswater Junior School and parents/carers will receive confirmation of their place once the sign up form closes.

Each session will last 45 minutes with an optional 15 minutes Q&A opportunity at the end.

Sessions **will not** be suitable for children to attend.
